## Background:

Organized by Chinese Mechanical Engineering Society, and sponsored by Foundry Institute of Chinese Mechanical Engineering Society, CHINA DIECASTING is a professional platform of die-casting industry which emerges as the industry requires. Since its first time being held in 1997, it has become an important industry event. The 10<sup>th</sup> CHINA DIECASTING 2015 will be held with an exhibition area of 20,000 m<sup>2</sup>.

As an important platform of foundry sourcing, Global Foundry Sourcing Conference (FSC for short) has been held 16 times since 2007. In order to serve customers better, FSC will hold Global Die castings Sourcing Conference 2015 together with FICMES.

## Conference characteristic:

### ※ Win-win cooperation:

We have successfully held the Global Foundry Sourcing Conference for 16 times since the year of 2007. The conference has become the most important sourcing platform of foundry industry. This time, we hold this professional multinational die-casting sourcing conference together with Foundry Institution of Chinese Mechanical Engineering Society.

### ※ Internationalism:

The die-casting purchasers are primarily from North America, Western Europe, Middle East, Japan and South Korea as well as the buyers with large purchasing quantity in China. Among them, there are more than 90 World Top 500 enterprises which are members of FSC. Besides that, most of the suppliers come from die-casting factories all around the world.

### ※ Optimizing process:

By providing business-matching service before the conference and other conference activities, such as procurement presentation of purchasers, face-to-face negotiation at conference table, and visiting factories after conference, we can promote purchasing efficiency for both suppliers and purchasers.

※ **Platform promotion:**

The publication named *China's Die castings Guide* will be edited with English and Chinese separated, to fit different reading habits of the readers from home and abroad. Both the digital and paper version of *China's Die castings Guide* will be distributed freely abroad in multiple channels to make a promotion for China's die-casting industry.

**Products list:**

**Die castings:** Aluminum die castings, magnesium die castings, copper die castings; High pressure castings, low pressure castings, squeezed castings, poor die-castings, semi-solid castings, etc.

**Supporting equipment:** Die casting equipment and supporting equipment, alloy materials and smelting equipment, die-casting mould, surface treatment, environmental protection equipment, detecting instrument and software, etc.

**Charge standard** (Company profile add to *China's Die castings Guide* before deadline: Jun.16<sup>th</sup>, 2015)
